

abSerial Firmware Release Notes

January 21, 2016

	Current	Previous
Build Version:	160105D	131104N
abSerial:	1.3LT	1.3LT
Configure Vars:	1.5LT	1.5LT

Enhancements

- The auto reconnection feature can now support a usage case with multiple devices in the bond table. Previously, only one device was allowed.
